

# HOW MUCH YOU LOVE

*by Allie Paige*

**D**            **G**

Jesus my friend

**D**                            **G**

You know me so deeply

**D**                            **G**

I'm never alone

**D**                            **G**

For you're always with me

**D**                            **G**

The plans that you hold

**D**                            **G**

You've made them just for me

**D**                            **G**

You see all my dreams

**D**                            **G**

You're dreaming them with me

**Bmin**                            **A**                            **D**                            **G**

It's so unreal to me just how much you love me

**Bmin**                            **A**

Just how much you love me

**D**                            **G**

Just how much you love

You don't withhold

Any good thing

You keep me so safe

Inside of your wings

Patient you are

In my learning

So close to my heart

In my hurting

**Bmin**    **A**    **G**

Oh Lord I melt before

**Bmin**

The depths of your heart (love) for me

**A**

**G**

The lengths that you'd go for me
